

Master View Mirror

This Master View mirror will be shipped with a 150mm long arm and the correct adapter. The aspherical mirror glass eliminates the blind spot and provides more safety in traffic. The CNC milled alloy mirror fits to the original mounts at the handlebar. If the mirror should move whilst driving tighten the nut on the backside of the mirror head to reduce the movement.

E-certified and street legal version.

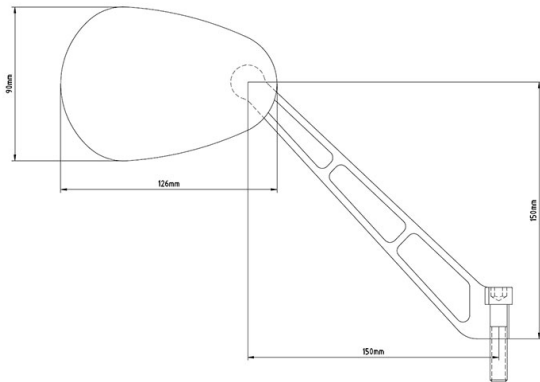

You will need 2 pieces for left and right side!

R1200GS 2004-2012

R1200GS Adventure 2005-2013
