

Adjustable Gear Lever

The adjustable gear lever for the BMW F650GS, F700GS, F800GS & Adventure is made of high-quality materials and convinces due to its trendy design. The lever consists of two pieces and is made of CNC-milled aluminium (scratch-resistant thanks to hardcoat finishing). It is infinitely adjustable which considerably improves ergonomics while driving. A spring lock ensures functionality, even after a fall over. The gear lever can be adjusted up to 3cm to the front from the original position so that it is easier to get between the shift lever and the footrest even with larger shoes.

No street homologation necessary!

BMW F650GS (2008-)

BMW F700GS

BMW F800GS (2008-2018)

BMW F800GS Adventure
