

Handlebar Risers with Offset

Handlebar risers with offset: 30mm higher and 21mm closer to the rider

Raising the handlebar by 30mm results in a more upright, much more relaxed seating position. Moreover, the handlebar is brought 21mm closer to the rider which additionally improves driving comfort.

Fits on original 22mm handlebar.

A longer brake line is necessary (part no. 01-610-5365-0; only fits for R1200R with ABS)!

With EU street homologation!

Also referred to as handlebar risers, handlebar height increase, bar back risers, barbacks.

BMW R1200R (2005-2010)
