

LED Indicator rear

LED indicator with support long

Shipment includes 1 LED indicator with plug.

The LED indicator looks like the indicator in the picture.

BMW R1250GS Adventure (rear)

Attention: If you want to replace indicators with bulbs by original BMW LED indicators, your BMW dealer has to make modifications in the program / software of your motorcycle. Otherwise, the LED indicators will not work.

Attention: These LED indicators (2-pin) are not interchangeable with the BMW multifunction indicators (4-pin)!

Note: Please use the product image to check whether this indicator is really the right one for your motorcycle!

Art-Nr.: 63238522500

54,90 EUR

LED Indicator rear, 1 Piece
