

RAM X-Grip clamp for smartphones

The X-Grip clamp offers stable hold for smartphones in all prevalent sizes and can be flexibly adjusted thanks to its 1" adapter ball. The rubber fingers of the clamping arms secure the smartphone reliably and, at the same time, permit a clear view and free access to the device.

For smartphones with a maximum depth of 2.22 cm.

Material: Stainless steel / high-strength composite plastic & rubber

Colour: black / silver

Article CPA.00.424.12600/B:

For smartphones with a maximum width of 2.2 to 8.2 cm

Very slim devices (with a minimum width of 2.2 cm) must be higher than 10.1 cm.

Article CPA.00.424.12700/B:

For smartphones with a maximum width of 4.4 to 11.4 cm

Very slim devices (with a minimum width of 4.4 cm) must be higher than 14.6 cm.

We recommend to use a waterproof protective cover for your smartphone. The smartphone with the protective cover must not exceed the respective maximum width and depth.

To mount the X-Grip clamp on your motorcycle, you always need:

RAM-ball (e.g. part no. NH 1-10) and a clamp (e.g. part no. NHZ4-90 / NHZ4-60).
