

RAM Camera Mount

This complete mount with adapter for action cameras is ideally suited for a tool-less fixation at motorcycle handlebars or tubes in general.

The mount consists of:

- 1 small Tough Claw fixation clamp with B ball (1 inch)
- 1 middle size composite material link arm (ca. 90mm)
- 1 ball adapter for action cameras (for GoPro / Garmin etc.)

The Tough Claw fixation clamp is a tool-less installation solution which can be mounted / disassembled fast and easily. The Tough Claw can be fixed both at round and angular tubes and also at flat overhangs.

Material: High-strength composite material

Clamp dimensions Tough Claw (small): at tubes from 15,8mm to 38,1mm, at flat overhangs from 0 - 28,96mm

Total length of link arm: 93,73mm (3,69 inch)

Base-to-base distance of link arm: 76,2mm (3 inch)

Diameter of ball: 25,4mm (1 inch, B ball)

Colour: black

You can see examples of fixation possibilities on the product images.
