

Front Brake Discs

Cool design, finest high technology, with TUV, and at an affordable price. After extensive testing and successful application in motor sport, we're introducing the new Lucas Alien brake disc to the marketplace.

Lucas brake discs are eye-catching at first glance. However, behind the elegant design there is really solid performance as well. The basic material used for the Lucas brake disc is a high-strength steel alloy to the standard 35 HRC.

Scope of delivery: 1 brake disc

BMW F750GS, F850GS & F850GS Adventure: MST 238

This brake disc is 4,5 mm thick. For a brake disc with a thickness of 5mm, see part number MST 239 FS.

Attention: For MST238 and MST238RAC, please order also the Fitting Kit MST14FK if the original parts cannot be dismantled / used.
