Give your motorcycle a real off-road look with our Enduro footpegs!

The Enduro footrests are equipped with rubber pads that can be quickly removed and reattached. With their wide contact surface, the footrests are ideal for comfortably riding even complicated routes and for safely mastering longer distances. The footrests are made of anodized aluminum.

Can only be installed as a driver's footrest.

Note: The Enduro footrests can only be installed in combination with the appropriate joints. The joints must be ordered separately.
