

Foldaway rearview mirror

This robust folding rearview mirror fits all motorcycle models with M10x1.5 right-hand thread and can be set in eleven predefined positions. It can be used for both the left and the right side of the motorcycle (2 pieces must be ordered for both sides!). The folding mirror has an ECE test mark and can be individually adjusted thanks to the two different basic positions and the adjustment range of 180° with eleven different locking points. To avoid damage when driving off-road or during transport, the mirror can be folded. The mirror arm can also be prevented from breaking if the motorcycle falls over, as the mirror can fold in thanks to its swivel arm. The pressure and effort of the ball joint and the lock can be adjusted using adjustment screws, so that loosening of the joints is avoided with frequent use. The oval shape of the rearview mirror offers the driver a large field of vision and the robust construction and the use of high-quality plastics make the mirror a long-lasting companion.

Scope of delivery: 1 mirror with assembly and adjustment instructions

Length: 26cm

Color: Black
