

Headlight grill

On offroad trips, flying stones are a main danger for the expensive headlights of your bike. Our headlight grill protects the headlight against damages in many cases. In addition, the grill gives your bike an exciting adventure look.

The headlight grill is adapted to the design of your bike and offers an effective protection against stone chips at the headlight. There are no reflections and no danger of self-produced glare. The headlight grill has a high-quality and robust coating.

Colour: black

Also referred to as headlight protector, headlight cover, steel grill, steel headlight guard.
